I. INTRODUCTION

All manuscripts must be in English. These guidelines include complete descriptions of the fonts, spacing, and related information for preparing your proceedings manuscripts. Please follow them and if you have any questions, direct them to the production editor in charge of your proceedings at the editor.ijaerd@gmail.com

II. FORMATTING YOUR PAPER

Paper Size :Prepare your paper in full-size format, on A4 size.

- **Layout**: Portrait
- **Line spacing** : 1.0
- **Margins** Top = 18mm (0.75”), bottom = 25mm (1”), side = 18mm (0.75”).
- **Pagination**. Number each page 17.5mm (0.5”) at the bottom center in 10 pt. font. (Applies to both Word and PDF)
- **Columns** One columns, fully justified.
- **Font** Times New Roman.
- **Style** Primary, first-level headings are centered, numbered with Roman numerals (I., II., III., etc.) Secondary Headings are flush left, numbered with cap letters (A., B., etc.)
- Figure and table captions should be 10-point boldface and Italic times new roman

10pt, Times new roman, 1.0 Line spacing

or a similar sans-serif font). Callouts should be 9-point non-boldface Helvetica. Initially capitalize only the first word of each figure caption and table title. Figures and tables must be numbered separately. For example: “**Figure 1. Database contexts**”, “**Table 1. Input data**”. Figure captions are to be centered *below* the figures. Table titles are to be centered *above* the tables.

III. FIRST-ORDER HEADINGS

For example, “**I. INTRODUCTION**”, should be Times 10-point boldface, initially capitalized, flush left, with one blank line before, and one blank line after. Use a period (“.”) after the heading number, not a colon.

3.1. Second-order headings

As in this heading, they should be Times 10-point boldface, initially capitalized, flush left, with one blank line before, and one after.

3.1.1. Third-order headings.

Third-order headings, as in this paragraph, are discouraged. However, if you must use them, use 10-point Times, boldface, initially capitalized, flush left, preceded by one blank line, followed by a period and your text on the same line.

IV. FOOTNOTES

Use footnotes sparingly (or not at all) and place them at the bottom of the column on the page on which they are referenced. Use Times 8-point type, single-spaced. To help your readers, avoid using footnotes altogether and include necessary peripheral observations in the text (within parentheses, if you prefer, as in this sentence).

REFERENCES

The template will number citations consecutively within brackets [1]. The sentence punctuation follows the bracket [2]. Refer simply to the reference number, as in [3]—do not use “Ref. [3]” or “reference [3]” except at the beginning of a sentence: “Reference [3] was the first . . .”

For papers published in translation journals, please give the English citation first, followed by the original foreign-language citation [6].
